Another Murder in Oxford County

Until the murder of David Varney at Porter last December there had not been a murder committed in Oxford county for several years. And now after a period of only about four months another man has been shot down.

Tuesday afternoon, Henry W. Farrington shot and killed Eugene Bryant in a lumber camp about three-fourths of a mile from East Summer village. Bryant's head was nearly blown off by Farrington, who says he fired in self defense.

Bryant is about 45 or 50 years old and came to Summer but a day or two ago to occupy a camp jointly with Farrington and his son. Until recently he was an inmate of the National House for Disabled Soldiers at Togus, and was also employed in the toy factory at South Paris. He was never married.

Farrington, who is about 60 years old, is also a veteran. He is married and has always commanded the respect of his acquaintances. He came from Hartford to work in the woods at East Summer about two weeks ago.

Believing that there was a good chance for his comrade to work cutting wood and to live in the camp with himself and son, Farrington sent for Bryant, who came in a few days. Old times were talked over and there was a celebration over the meeting of the veterans. The festivities continued until the terrible tragedy.

Whittington drove to the village and visited the camp, which is about 40 rods from the main highway. After viewing the body and looking up the camp he returned to the village and took Farrington into custody.

Tuesday night, County Attorney C. P. Barnes of Norway and High Sheriff B. G. McIntire of Waterford took charge of the case.

Scott Saunders of Mechanic Falls was at his old Norway home this week.

Montella Bradbury has moved from the George Swett house on Paris street to the Willey house on Beal street.

Rev. S. G. Davis will speak at the Lenten services of the Universalist church, at South Paris, next Tuesday evening.

Next Monday evening the Norway village corporation meeting will be held in Norway Opera House. The reports are being printed.

Thursday afternoon, Mrs. Freeland Howe entertains the Barton Reading club at her home on Main street, subject "Current Events."

The base ball season is opening with a rush. Boys with bats, gloves, mits, etc. now familiar sights on our streets and our dealers are catering to the trade.

Mr. and Mrs. John Rice, who have been spending the winter with their daughter, Mrs. Fred Stone, have returned to their home at North Waterford.

W. S. and R. L. Bickford have purchased recently a fine lapidary machine, designed and constructed by L. B. Merrill of Paris Hill. This they will use for cutting their gems.

George W. Locke is in Boston this week as a delegate to the United Order of Pilgrim Fathers. Mrs. Locke accompanied him. George Hott will look after the schoolhouse during Mr. Locke's absence.

Miss Libby, the photographer, entertained fourteen of her friends at her studio, on Cottage street, the other evening. Light refreshments were served. The evening was spent socially.

Annie Bagley gave pleasing selections on the phonograph.

L. J. Gilbert was in his store Monday for the first time since he fell on the ice three weeks ago. He is not able to do any work yet but hopes to be able to get to the store each day. Mrs. Wardwell, his sister who has been caring for him, has returned to her home in Turner.

Norway Municipal Court.

A. A. Bruce of Albany was brought before Judge Davis last Monday by Chas. Boobier for cruelty to his horse. Bruce was fined \$5.00 and costs.

Fatally Burned.

Last Thursday evening, Fanny Elizabeth Stevens, a member of one of the oldest Cambridge families, was fatally burned at her home, 69 Thorneike street. She was going from the dining-room to the kitchen with a lighted lamp in hand when she tripped and fell, breaking the lamp, and in an instant her clothes were a mass of flames. Her cries brought her brother and he tore the clothing from her body and extinguished the flames.

A physician was called and he gave what aid he could and ordered the immediate removal of Miss Stevens to the Massachusetts General Hospital. She died there a few hours later.

She was the daughter of the late George Stevens, an ex-Mayor of Cambridge. He was a native of Norway and went from here when a young man and engaged in the organ business, and continued in the manufacture of church organs until his death in 1894.

A brother Wendell H. Stevens was found dead in his room Tuesday afternoon. Wendell was suffering from tuberculosis. The Stevens family consisted of two brothers and a sister, all past middle life. All three were afflicted mentally and the probate court appointed a guardian for them several years ago.

She also has 32 chickens which are four weeks old, making 65 in all. They are growing fine. She hatches her chickens with hens and raises them without the aid of either hens or brooders and is very successful as her chickens show their good care.

Postoffice Aspirations.

W. R. Robinson, postoffice inspector, with headquarters at Portland, has been calling on and interviewing the patrons of the Norway postoffice, for the past two days as regards the services and management of the postal affairs of the office.

Capt. Moses P. Stiles has held the office for the past eight years, and under recent rulings of the department he is in hopes to be continued as postmaster for the next four years. To this many of the patrons of the office object, hence the investigation by the inspector.

What his conclusions are is not known but it is evident that the inspector is making a careful and thoughtful study of the situation and in due time will report to the department.

The community and some others wait with much interest for the decision.

Jesus P. Edwards, clerk at the postoffice, and Chas. S. Akers, have many names on petitions asking for the appointment in the event of a vacancy.

The inspector did take time to drive over to North Waterford, and look over the situation there. F. M. Mosher and Harry Brown are the candidates. Both want the office. Which one is to get it is not known.

Health in Every Drop!

Now is the time for your Spring Remedy

DR. GREENE'S NERVURA

Blood and Nerve Remedy

The Best Spring Tonic and Restorative Known to Science—a Boon to the World

Everybody needs a spring medicine to renew the strength, vigor, snap and energy of the nerves—to purify and enrich the blood.

Dr. Greene's Nervura blood and nerve remedy is the one remedy to take—the greatest and best spring medicine the world has ever known.

It is absolutely harmless and every ingredient is a natural food and medicine for the nerves and blood.

Now—in the unhealthy and treacherous spring months—you need Dr. Greene's Nervura most. It has been the world's standard spring medicine for years—the one remedy on which the public can always depend.

It conquers all nervous weakness and exhaustion, spring debility, run-down blood, sleeplessness, dyspepsia, kidney and liver complaints, weakness, and all diseases which accompany debilitated blood and weakened nerve force.

Mrs. E. J. CHENEY, 1 Spring St., Woodford, Me., says: "Last spring my husband and myself were not feeling well, and I was suffering from a nervous difficulty. I did not sleep well nights, and having had sickness in the family, I had become exhausted. We heard Dr. Greene's Nervura blood and nerve remedy highly recommended by others. My husband and myself used eight bottles and we derived great benefit from its use. I can now sleep well and am better since its use. We think highly of Nervura."

Dr. Greene, 94 Temple Place, Boston, Mass., is the most successful specialist in curing nervous and chronic diseases. He uses remedies for all forms of disease, and offers to give free consultation and advice, either in person or by letter. You can tell or write your troubles to Dr. Greene, for all communications are confidential, and letters are answered in plain, sealed envelopes.

Maxim's Maxims.

Dishonesty is always short-sighted. Some people are like some hens, they fly high and light low.

To get excited over small affairs is a sure sign of weakness. Instead of mourning over our calamities let us rejoice over the ones we have escaped.

Without darkness we should never see the stars, without adversity we should never know the blessings of prosperity.

He was a son of Edward and Rachel (Ward) Weston, and was born in Fryeburg, Jan. 13, 1834. He married Abby Gilman of Eaton, N. H., by whom he had four children: Mary W., who married William B. Post of Fryeburg, Susanna, George and Edward. He was educated at Fryeburg Academy and for many years was a trustee of that institution.

During his long and active life, he was engaged in farming, lumbering, in real estate, dealing in horses and cattle, sending large droves of the latter to the Brighton market for nearly 50 years. He had a large and handsome residence, built by himself, on the banks of the Saco, commanding a charming view of the river, the broad intervals and the mountains.

The answer contains 51 letters.

4, 40, 32, 54, is to do as one is bid. 8, 22, 19, 27, is to salute. 7, 41, 26, 36, is to be a package of paper. 15, 37, 3, 24, is a relative. 21, 13, 3, is fine rain. 15, 13, 3, is sorrowful. 23, 20, 20, is meritment. 23, 30, 33, 6, is in a cooking. 32, 40, 35, is to kill. 10, 31, 41, is a silver coin. 43, 10, 41, 47, is a ship. 43, 12, 6, 3, is costly. 49, 33, 50, 39, is a pointed weapon.

After marking down the 54 letters be careful in your selection of key-words. Now the tenth word names something used by cooks, but it is not fire, heat, oven or salt. When the right words are guessed and filled in, please send the quotation to PUZZLER, Box 55, West Bethel, Maine, and if competing for one of the prizes please enclose a two-cent stamp. Letters complying with this condition will be numbered as received and opened to the 1st, 5th, 10th, 15th, 20th, 25th, 30th, 35th, 40th, 45th, and 50th, will give magazines, books, and subscriptions to papers, the smallest prize being worth at least ten cents and the printed price of the largest one dollar. Hope the eleven prizes will all be won before April 21st, which is the date for closing the contest.

AN OLD MAN'S TRIBUTE.

An Ohio Fruit Raiser, 78 Years Old, Cured of a Terrible Case After Ten Years of Suffering.

When suffering daily torture from backache, rheumatic pain, Any ill of kidneys or bladder, Turn to Doan's Kidney Pills. A cure endorsed by thousands. Read an old man's tribute.

Sidney Justus, fruit dealer, of Mentor, Ohio, says: "I was cured by Doan's Kidney Pills of a severe case of kidney trouble of eight or ten years' standing. I suffered the most severe backache and other pains in the region of the kidneys. These were especially severe when stooping to lift anything, and often I could hardly straighten my back. The aching was bad in the daytime, but just as bad at night, and I was always lame in the morning. I was bothered with rheumatic pains and dropsical swelling of the feet. The urinary passages were painful, and the secretions were discolored and so free that often I had to rise at night. I felt tired all day. Half a box served to relieve me, and three boxes effected a permanent cure."

A FREE TRIAL of this great kidney medicine which cured Mr. Justus will be mailed on application to any part of the United States. Address: Foster-McLennan Co., Buffalo, N. Y. Sold by all dealers; price, fifty cents per box.

Mainspring of Life

No One Can be Strong With a Weak Stomach. Noyes Drug Store Tells How May be Strengthened.

The stomach is the mainspring of life. When it is strong and acts perfectly then the whole system is right, assimilation is perfect, and body and brain thoroughly nourished.

One may perhaps get temporary relief from stomach troubles by using cathartics, or some other drastic treatment, but such treatment has no curative effect and does not reach the seat of the trouble, remove the cause.

How much better to use M-i-o-n-a which restores lost functions of the whole digestive system, revives the nutrition, and aids in the assimilation of food.

M-i-o-n-a is a pleasant remedy to take and benefit is seen from almost the first day's treatment. It restores the digestive system, stimulates the natural secretions. It checks fermentation, stops germ growth, soothes inflamed bowels, cures all troubles, such as headaches, backaches, rheumatic pains, nervousness, sleeplessness, nervousness, and general debility, which are caused by imperfect digestion.

It is the only remedy that is so firmly successful in the cure of all diseases of the digestive system. It gives a guarantee with every box of M-i-o-n-a tablets that they will cost nothing unless they cure. They have so much faith in M-i-o-n-a they are willing to take all the risk.

Letter to M. M. Fuller, Norway, Maine.

Dear Sir: Here's something every painter and builder ought to know.

Mr. J. H. Hall, Sheffield, Pa., painted two houses, 5 years ago, lead-and-oil; took 40 gallons. Last year he painted Devoe, bought 40 gallons; had 10 left.

He is one of thousands. The knowledge is getting about pretty generally, that Devoe goes further than anything else.

Have you found it out in your own experience?

How much further?

Suppose a job amounts to 10,000 square feet; how much less Devoe could you buy?

Is it as easy to paint? Does it cost any more or less to put-on by the gallon than anything else? How much?

If it costs no more to put-on Devoe by the gallon, it costs less by the foot, you know; for the gallon does more feet. How much less, do you find it, for wages?

Lasts, say, twice as long; that is the owner's gain; but perhaps you reckon it years; some do. The time when that comes in, is when he gives out the next job.

Who gets it? Yours truly,

F. W. Devoe & Co.

Story Related by Gen. Beal.

Wm. C. Leavitt has the following story he tells as was related by the late Gen. Beal in his store some years ago. He tells it as near as he can remember it. The general said:

"While I was Provost Marshal in South Carolina at the close of the War of the Rebellion, there was a complaint brought to me by a person known as Dr. Dargin about an old negro who had been stealing, as the doctor claimed, tools from him. The poor old darkey was arrested and brought before me. It was shown that the poor old fellow had gone in the daytime and taken a few carpenter's tools; he by the way, was a skillful workman and had been the slave, until freed by the war, of this same Dr. Dargin and had been hired out by the doctor to work where ever a carpenter was wanted his earnings going to his owner.

"The old fellow did not deny the charge, acknowledged taking the tools, and in defense made this plea, that he had made no attempt to imitate the negro dialect:

"Massa, Ise an old nigger, I have nothing in the world to support myself and my old wife, I could do nothing without the tools I had always worked with, with them I could earn a living, without them we should go hungry. I have been the slave of the doctor and family all my life. For the last fifty years I have earned their family from two to three dollars a day. I feel that these few poor tools are mine and I took them if you call it stealing, very well, I can go to jail and my poor wife will starve or live by begging, and she had rather die than do that, but I do not think I have done any wrong."

The old General with moist eyes said: "I told him to take them, they are yours now anyway, and if anybody interferes with you in any way we will see what General Beal can do about it, and you Dr. Dargin, get out of this before I am tempted to do you bodily injury."

Receives Official Endorsement.

Our candidacy for road commissioner as set forth in this paper receives the endorsement of the Commissioner of Highways—Paul D. Sargent—as per the following letter:

F. W. Sanborn, Esq., Norway, Maine.

DEAR SIR:—I am in receipt this morning of two marked copies of your bright newspaper and have been very much interested in reading your proposals to the voters of your town in the giving them permanent roads for no larger outlay than the present annual expense, provided they would elect you commissioner for ten years, and agree not to have at any one time a complete new board of selectmen. I am very much interested in this matter, but it seems to me the town cannot afford to turn down your proposal. The idea is just in line with what I would like to see carried out in many of our towns, provided only the right man filled the office of road commissioner.

I see by looking over your platform or the outline of your policy provided you are given the position, that you propose to start right by having grades established and a drainage system built. To my mind, if nothing more than that was done in your ten years term, and that work was done thoroughly and completely, you would have vindicated your right to the office. But I believe you would do more. Your letter has the right ring and with your proposal to furnish a bond I can hardly see where this is anything but a making proposition for the town. I sincerely hope you will be successful in the enterprise.

Very truly yours,

PAUL D. SARGENT, Commissioner.

Augusta, Mar. 29, 1906.

Unfortunately, perhaps for me, the office sought is not at the disposal of the State Commissioner of Highways but is for the voters of Norway to say who shall be road commissioner and to decide on the length of time he shall serve, provided of course, that the legislature gives that permission.

Every person in town wants better roads. Shall we have them?

We lay no blame or find any particular fault with the acts of our present or former road commissioners. They have acted conscientiously in the matter and have done as well as they could with the material at hand.

The time has now come for a change. Shall we have it?

PAINS

AMERICAN WOMEN FIND RELIEF

The Case of Miss Irene Crosby Is One of Thousands of Cures made by Lydia E. Pinkham's Vegetable Compound.

How many women realize that it is not the pain in nature that women should suffer so severely.

Thousands of American women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs these periods of their terrors.

Miss Irene Crosby, of 313 Charlton Street, East Savannah, Ga., writes:

"Lydia E. Pinkham's Vegetable Compound is a true friend to woman. It has been of great benefit to me, curing me of irregular and painful periods when everything else had failed, and I gladly recommend it to other suffering women."

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement of organs, inflammation or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising women free of charge. Thousands have been cured by so doing.

HARRISON.
The Hauling of the Buildings.
All the village turned out to see the "hauling," when two buildings belonging to H. H. Caswell were drawn through the streets and out on the Waterford road about one-third of a mile. Several unsuccessful attempts had been made, but finally R. L. Davis took charge and with 14 pairs of oxen and four pairs of horses successfully accomplished it. The buildings are to be fitted up for a tenement.
Blanche Cole and Ethel Whitney, teachers in Massachusetts, are spending the Easter recess at their homes here.
David Kneeland and wife of The Elms House are spending a month in Boston, New York and New Jersey, visiting some of their summer guests.
F. A. Emery and wife, who had charge of the town farm last year, have gone to New Hampshire, and Coleman Packard and wife will take charge of the farm this year.
John Proctor has taken the contract to build a hotel, "The Hartford," at J. C. Edgerley and work will begin as soon as the weather will permit. The hotel will contain forty rooms, is in a beautiful situation looking down Long lake and applications for rooms are already being received.
There are many cases of illness in the village at present. Z. Abbott is quite low. Mrs. Dorcas Kneeland, one of our oldest ladies, has been very ill but is surprising her friends by her improvement from day to day. Mrs. F. H. Bicker and Mrs. Geo. Wilbur, who have both been very sick, are recovering. John Haskell is out but looking very pale and thin.
Rev. E. Z. Whitman, former pastor of the F. B. church, left here last week with his wife, his daughter, Mrs. May Davis, and his little granddaughter, Dorothy Davis, for Topeka, Kansas. They go for the benefit of Mrs. Davis' health. It is understood that Mr. Whitman expects to be employed by the Congregational Home Missionary society. Eben Kneeland and family have moved to Mr. Whitman's farm.
The Poverty Ball under the auspices of the Grange, which occurred Friday evening of last week, was a huge success in spite of the bad traveling, and one hundred couples danced until one o'clock the next morning and many more enjoyed the supper and dancing given by the ladies in the banquet hall below. Joseph Pitts and Mrs. Ethel Packard captured the prizes as being the best examples of poverty present but there were many more who attracted much attention. One Edwards was chairman of the committee of arrangements and Charles Doughty was floor manager and with his wife led the grand march. The music was furnished by Lamb's Orchestra of seven pieces, which has produced such a hit here this winter at all the more important dances.

WEST PARIS.
The New Universalist Church.
The Universalist parish meeting held Tuesday evening of last week was well attended. In the absence of S. W. Dunham, Dr. F. H. Water acted as moderator. The treasurer's report showed that over a thousand dollars had been received from various sources. This does not include the memorial stained glass windows donated by interested friends, and which amounted to about \$1,700.
The report of the trustees showed that over \$4,000 had already been expended on the church and the interior is yet to be finished. The plastering is now dry and the workmen are putting on the wood finish. The parish elected the old board of officers as follows:
Moderator—S. W. Dunham.

NORWAY AND VICINITY
Celebrates His 51st Birthday with a

Last Friday, April 7th, was the anniversary of the birth of Cyrus Woodson and it was fittingly observed by a party of friends and neighbors, who assembled at his residence, Main street. All who were invited at the appointed hour excepted editor of this paper, who was not town.

As fine a supper as has been given any one to enjoy was prepared and by his daughter, Miss Olive Woodson. It consisted of—its no use to state—it was ample in every particular and full justice was done to it.

A heavy oak rocker was given Woodson by the friends as a memento of the event of turning the milestone in the journey of life, chosen and appropriate presents were made by Hon. A. S. Kimball and this token of respect was graciously accepted by the birthday man.

From looks and appearance you hardly believe Mr. Woodson had the allotted three score and ten laid down in the good book. His and actions lead one to believe he is ten years younger than he is.

However we must accept the record, he is correct.

Those present according to the record were—

Cyrus Woodson, Geo. A. S. Kimball, A. L. F. Pike, E. C. Winslow, Dr. H. L. Bartlett, Dr. B. Foster.

Nellie Andrews was in Auburn, Ed. Dyer is stopping at home in present.

Mrs. Wm. Lewis is visiting relatives in Roxbury, Mass.

Harry S. Newcomb is working trade off in Portland.

Mrs. George Bicknell and her family have returned home to Roxbury.

Mrs. Elmira J. Bicknell is at Mills, working for Mrs. Walter J. Francis and Clyde Kimball of W. S. Mass., are stopping at W. S. Mass.

Mrs. John L. Marshall, of West, is visiting Mr. and Mrs. George Locke.

Mrs. Bertha Jordan of Mechanic visited her aunt, Mrs. Orin Kimball Saturday and attended the funeral of N. Buck.

A. L. Hobbs of Fresno, Cal. who years ago had charge of the express here, made a short visit and friends in this vicinity arrived Thursday and returned. He reports business to be good.

He stands directly behind the pitcher, and if it is thrown forward, and as the ball is not returned to the pitcher, he starts off in pursuit, gets the ball in his mouth and brings it back to the pitcher. He is very intelligent. If a ball is knocked into a brush pile or the Jack forms a valuable adjunct team, as he is off after the ball and fails to bring it back in short of
